PRO AV AFRICA LIMITED

PRO AV Africa is a regional distributor of professional audiovisual (AV), Unified Communications, and smart technology solutions, representing some of the world's leading manufacturers.

We design and supply complete AV solutions across East Africa for education, corporate, government, healthcare, hospitality, houses of worship, transport, retail, command & control, entertainment, and industrial facilities — from boardrooms and control rooms to full-scale enterprise projects.

With decades of combined industry experience, we support system integrators, ICT companies, consultants, and corporate clients throughout the region.

Beyond supplying equipment, we partner with our clients at every stage of the project — solution design, product selection, BOQs, schematics, demonstrations, technical training, commissioning, and after-sales support — ensuring every system performs exactly as intended.

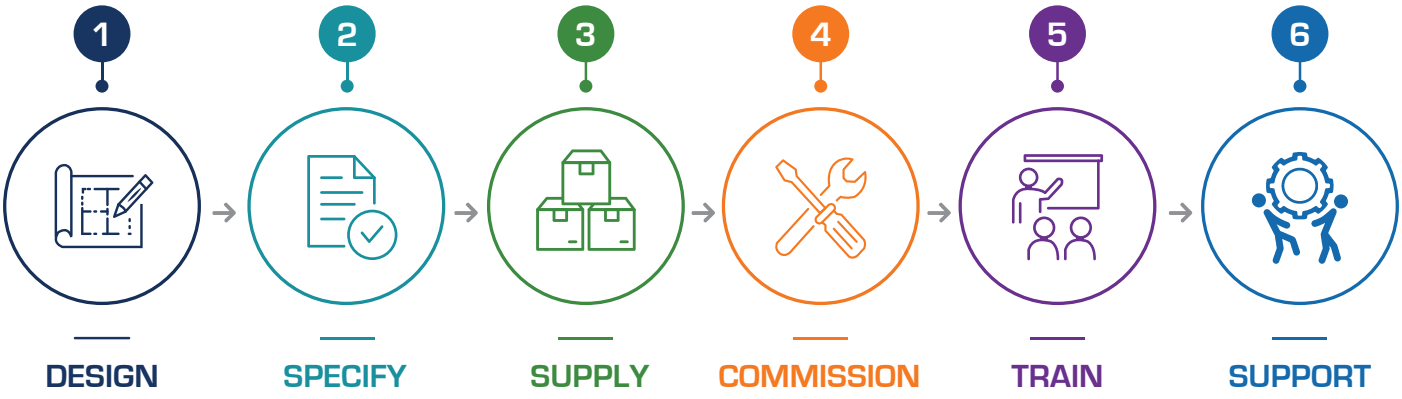
OUR VALUE-ADDED APPROACH



MORE THAN A DISTRIBUTOR

From system design and BOQs to commissioning, training and local after-sales support, PRO AV Africa supports partners throughout the complete project lifecycle.

AV INFRASTRUCTURE

KRAMER

Kramer provides comprehensive AV infrastructure solutions, including signal management, AV over IP, switching, control systems, wireless presentation, and collaboration technologies. Designed for education, corporate, healthcare, and government environments, Kramer solutions deliver reliable, scalable, and intuitive AV connectivity.

ATEN

ATEN delivers professional AV and IT infrastructure solutions, including KVM over IP, video matrix switchers, extenders, and control systems. Designed for control rooms, data centres, corporate, and education environments, ATEN solutions provide secure, reliable, and scalable management of AV and IT systems.

BLUSTREAM

Blustream specialises in advanced AV distribution solutions, offering AV over IP, HDMI matrix switchers, video extenders, multiviewers, control systems, and audio distribution products. Designed for commercial and residential applications, Blustream solutions provide high-performance, flexible, and cost-effective AV connectivity for modern installations.

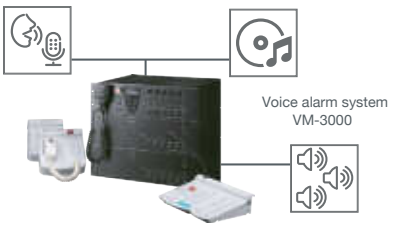
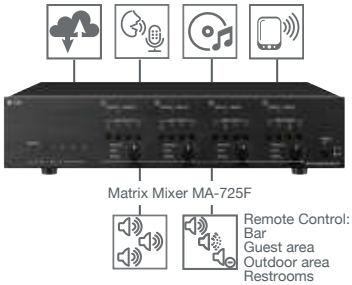
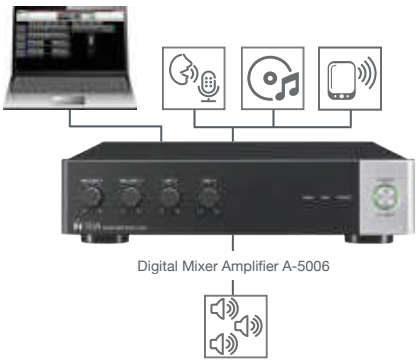
WE SUPPLY SOUND, NOT EQUIPMENT







TOA Electronics

For over 90 years, TOA Electronics has been setting the global standard in professional sound and communication systems. As the pioneer of the horn loudspeaker, TOA manufactures microphones, amplifiers, loudspeakers, horns, megaphones, conference, intercom, public address, voice evacuation, and IP audio solutions. Renowned for exceptional reliability, outstanding audio quality, and long-term performance, TOA products are trusted in mission-critical installations across more than 120 countries.

INTERACTIVE & COLLABORATION SOLUTIONS

Simple & Cost Effective Cutting-Edge Interactive Touchscreen Displays 55" - 98"

vivitek® MAXHUB

NovoTouch

NovoTouch is a powerful all-in-one touch display that is ideal for conference rooms, meeting areas and corporate lobbies. Equipped with Vivitek's NovoConnect, it provides wireless screen sharing from any device. NovoTouch facilitates group work with its whiteboard annotation features and NT live screen to duplicate the screen and multiple NovoTouch displays.

MAXHUB

When and if you're looking for all-in-one interactive displays - explore MAXHUB's **interactive displays with built-in camera and microphone arrays,** vibrant touchscreens, and versatile connectivity. Perfect for dynamic collaboration in any setting.

Interactive/Touch Laser projectors

Transform your presentations with Vivitek's laser interactive/Touch projector! Enjoy ultra-short-throw projection, multi-touch interactivity, and stunning image quality. Perfect for classrooms and offices.

Wireless Presentation & Collaboration Solutions

Wireless presentation and collaboration devices significantly enhance productivity by enabling seamless, flexible content sharing and collaboration without the need for physical connections, thus promoting a more interactive and efficient work environment.

BYOM

Bring Your Own Meeting (BYOM) enables users to host and manage video conferences using their own devices, connecting wirelessly for enhanced flexibility and convenience.

PRIVACY SYSTEMS – SOUND MASKING

cambridge SOUND MANAGEMENT

biamp.

Keep Private Spaces Truly Private

Speech privacy is often overlooked in the design and construction of meeting rooms, offices, and conference spaces. Conversations can easily travel under doors, through walls, or across ceilings, making confidential discussions audible to unintended listeners. This lack of acoustic privacy not only compromises sensitive information but also reduces confidence in the security of private meetings. Effective acoustic solutions ensure that conversations remain where they belong—inside the room—protecting confidentiality, enhancing comfort, and creating spaces where people can communicate with confidence.

Who Needs Sound Masking?

Corporate: Open Office, Private Office & Outside of Conference Rooms
Healthcare: Hospitals, Clinic Offices & Counselling Areas
Co-working Spaces
Call Centers
Education: Classrooms & Testing Centers
Government & Law: Secured Facilities, Courtrooms, Law Offices
And more...

REDUCE NOISE DISTRACTIONS | PROTECT SPEECH PRIVACY
INCREASE WORKPLACE PRODUCTIVITY

What's Special About High-Resolution Sound Systems?

High-resolution sound systems deliver superior audio clarity and detail, enhancing the listening experience for both residential and commercial spaces. They provide a more immersive and accurate sound, capturing nuances that standard systems miss. This quality is ideal for audiophiles at home and for creating an impressive ambience in commercial settings like restaurants, hotels, and offices.
